

Positions for PhD students and postdoctoral researchers at the Institute of Applied Geometry, JKU, Linz, Austria

The Institute of Applied Geometry at Johannes Kepler University (<http://www.ag.jku.at>) has vacant positions for PhD students and postdoctoral researchers. Applicants should possess a background in geometric modeling, computational geometry or numerical analysis.

- Position for PhD students are typically for 3 years, while positions for postdoctoral researchers are for 1-2 years.
- The position for PhD students is available in the frame of the Doctoral Programme "DK Computational Mathematics" (funded by the Austrian Science Fund, <https://www.dk-compmath.jku.at>).
- The positions for postdoctoral researchers are available in the frame of the European project EXAMPLE (<http://www.ag.jku.at/example/>) and within the National Research Network "NFN Geometry + Simulation" (funded by the Austrian Science Fund, <http://www.gs.jku.at>).
- The remunerations comply with the salary scheme of the Austrian Science Fund which is described at

<http://www.fwf.ac.at/en/research-funding/personnel-costs/>

For further information please contact Professor Bert Jüttler, preferably by email to bert.juettler@jku.at.

Applications (CV, a letter/email describing your motivation, name of one or two references) should be sent to Professor Bert Juettler, bert.juettler@jku.at.

Johannes Kepler University is an equal opportunities employer.

Linz, December 2014
